Passionate and experienced in developing cross-platform mobile applications. I am eager to learn and implement new technologies, aiming to optimize products and enhance the user experience.

EDUCATION

UNIVERSITY OF INFORMATION TECHNOLOGY Aug 2018 - Sep 2023
Major: Information Technology
GPA: 8.1/10

WORK EXPERIENCE

Younet Social Aug 2022 - Present
Mobile Developer

Project: Metafox (Mobile application)

- Description:** It is an online community-building tool that enables businesses, brands, creators, and interest groups to create their own social communities.
- Technologies:** React Native, TypeScript, Redux Saga, Firebase.
- Responsibilities:**
 - Maintained and developed new modules for the core application, such as Social Invitation, Dating, etc.
 - Added features with animations (reaction drop effects, drag-and-drop objects,...) using libraries like Reanimated, Skia, etc.
 - Wrote scripts to automate repetitive tasks during app builds, such as downloading source code of custom modules, checking and adding dependencies and special permissions.
 - Developed custom features based on client requirements, such as managing expenses and residents in buildings, creating courses, etc.

Gita Apr 2022 - Jul 2022
Personal projects

- Description:** An application for Guitar buying and selling.
- Technologies:** React Native, Firebase.
- Features:**
 - Register and log in using Firebase Authentication.
 - Search for guitars by name, discounts, quantity sold, etc.
 - Place orders and track order status, manage products, and confirm orders.
 - Generate revenue and profit statistics.
- Github:** <https://github.com/hvhiep/Gita>
