SUMMARY

I am a Mobile Developer with 2+ years of experience in developing cross-platform mobile applications, especially using React Native. Passionate about building feature-rich, user-friendly, and high-performance applications.

SKILLS

- **Technical Skills:** React, React Native, JavaScript, TypeScript, Redux, Redux Saga, Firebase, HTML, CSS, Git, Jira.

- **Soft Skills:** Problem Solving, Teamwork, Time Management, Communication, Documentation, Self-learning.

EXPERIENCE

- **Younet Social - Metafox**   District 11, Ho Chi Minh
  Mobile Engineer   *Aug 2022 - Present*
  https://www.phpfox.com/
  An online community-building tool that enables businesses, brands, creators, and interest groups to create their own social communities.

  - **Technologies**: React Native, Redux, Redux Saga, Firebase, Android, iOS.
  - **Responsibilities:**
    * Maintain and enhance scalable core modules of the main social application including Forum, Marketplace, Activity Points, Chat, Reactions.
    * Research and fix native issues in third party libraries to ensure the app functions properly.
    * Develop new modules and features, such as Social Invitation, Dating, Multi-step Forms, Custom Font Family, In-app Notifications, Camera, Jump to Message, and more.
    * Enhance the app's UI/UX with high performance by leveraging animation libraries such as Reanimated, Gesture Handler, and Skia to develop features like Drag-and-Drop and Fly Reactions.
    * Reduce repetitive tasks for the team by implementing automation scripts, such as downloading custom source code and adding packages or permissions during the build process.
    * Familiar with native build tools such as Xcode and Android Studio, assisting the team leader in building and deploying apps to the store.

PROJECTS

- **Gita**
  Personal Projects - Mobile developer   *Apr 2022 - Jul 2022*
  An e-commerce application for buying and selling guitars.
  - **Technologies**: React Native, Firebase, Redux, Redux Toolkit.
  - **Features:**
    * Register and log in using Firebase Authentication.
    * Search for guitars by name, discount, quantity sold and more.
    * Place orders, track order status, manage products, and confirm orders.
    * Generate revenue and profit statistics.
  - **Github**: https://github.com/hvhiep/Gita

- **Kalos**
  Team Projects - Mobile developer   *Oct 2021 - Dec 2021*
  A fitness application for people to work out at home.

- **Technologies**: React Native, Firebase, Redux, Redux Toolkit, MongoDB.
- **Members**: 4.
- **Features:**
    * Register and log in using MongoDB.
    * Choose exercise programs, watch video tutorials in training programs, and save programs to favorites.
    * Manage body parameters (BMI, height, weight) and search or filter exercises.
- **Github**: https://github.com/hvhiep/Kalos

EDUCATION

- **University of Information Technology**   Thu Duc, Ho Chi Minh
  Major: Information Technology; GPA: 3.24/4   *Aug. 2018 – Sep. 2023*

AWARDS

- **UIT academic encouraging Scholarship in 1st semester.**   *2021 - 2022*
